

Building a Bridge for Metrics with SUSHI-Lite

Lauren B. Collister, Scholarly Communications Librarian lbcollister@pitt.edu

Clinton Graham, Systems Developer ctgraham@pitt.edu

DO YOU
WANT TO

- harvest usage data on demand and just-in-time?
- show usage data for an individual document?
- simply & systematically access the metrics data you need?
- be flexible in your display of metrics?

USE

SUSHI
LITE

STANDARDIZED USAGE STATISTICS
HARVESTING INITIATIVE

COUNTER
Report

(parentheses)
indicate our use case

SUSHI-Lite
Service

(SUSHI-Lite OJS
plugin)

NISO SUSHI-Lite

SUSHI-Lite
Client

(Plum Analytics)

An open standard for sharing metrics
between resources and content
providers, simply and quickly.

Resource

(Library-published
journal)

Usage Data

(Altmetrics)

Altmetrics
Display

(Plum Analytics
widget)
