Building a Bridge for Metrics with SUSHI-Lite

Lauren B. Collister, Scholarly Communications Librarian  
lbcollister@pitt.edu

Clinton Graham, Systems Developer  
ctgraham@pitt.edu

DO YOU WANT TO

- harvest usage data on demand and just-in-time?
- show usage data for an individual document?
- simply & systematically access the metrics data you need?
- be flexible in your display of metrics?

USE

SUSHI-Lite

SUSHI-Lite Service
(SUSHI-Lite OJS plugin)

Resource
(Library-published journal)

Altmetrics Display
(Plum Analytics widget)

Usage Data
(Altmetrics)

SUSHI-Lite Client
(Plum Analytics)

COUNTER Report

NISO SUSHI-Lite

An open standard for sharing metrics between resources and content providers, simply and quickly.

(parentheses) indicate our use case
