Classroom Assessment in the Virtual Classroom

Chloe Dufour, University of Pittsburgh
Zoom Poll

Are you familiar with the idea of checking for understanding or classroom assessment techniques?
Zoom Poll #2

When do you typically check in with students during instruction?
Online Instruction Gone Bad

- Lecturing more
- Hearing from students less
- Generally feeling that "gap" between myself and students
Example Lesson Plan

Business Information Systems Ethics course that has a mix of students but typically not freshmen. Their assignment is a group research paper over a broad topic in the area of technology (i.e. blockchain, drones, wearables, etc).
Techniques & Tools
What techniques and/or tools are you currently using?

- Google slides
- Chat
- Google docs
- Padlet
- Kahoot
- Poll Everywhere
- Google forms
- Mentimeter
- Zoom breakout
- Zoom meetings
- Whiteboard brainstorm
- Google jamboard
- Zoom polling
- Boolean logic
- Google jamboards
- Kaltura
- Advanced Google
- Surveymonkey
- Screencasting
- Chat and how to save chat
- Breakout rooms
- Confidence
- Pdf handouts
- Zoom annotate scavenger hunt
- Hypothesis for annotation
- Flipped instruction
- Google has flippity
Background Knowledge Checks

- Helps to get a sense of what students already know
- Simple example: "How many of you have used the library before?"
- Easy to integrate with online tools like Zoom, Mentimeter, or Poll Everywhere
Muddiest Point

- Asks students to articulate what they don't understand from your lesson
- Examples are "What was the muddiest point in what I covered?"
- or "What still is not clear to you after my demonstration?"
- More specific than asking "Does anyone have any questions?"
- Using tools that collect responses in real time like Mentimeter or Poll Everywhere
Transfer & Apply

→ Asks students to utilize what they have learned in a real-life application
→ Slightly more involved on the instructor-librarian's end
→ LibWizard Tutorial or Google Form for collecting responses
Opinion Polls

→ Offers a sense of student's dispositions or what is preventing understanding

→ Asking what they would do, how they feel, or how much they agree with a statement.

→ Any tool that offers polling, or a scale feature
Resources That I Can Use in my Research

A peer-reviewed journal article

A report published by a market research firm

An article in a trade magazine
New Lesson Plan
