</thead>
</table>

#### 4A. Assess the appropriateness of a primary source for meeting the goals of a specific research or creative project.

#### 4B. Critically evaluate the perspective of the creator(s) of a primary source, including tone, subjectivity, and biases, and consider how these relate to the original purpose(s) and audience(s) of the source.

#### 4C. Situate a primary source in context by applying knowledge about the time and culture in which it was created; the author or creator; its format, genre, publication history; or related materials in a collection.

#### 4D. As part of the analysis of available resources, identify, interrogate, and consider the reasons for silences, gaps, contradictions, or evidence of power relationships in the documentary record and how they impact the research process.

#### 4E. Factor physical and material elements into the interpretation of primary sources including the relationship between container (binding, media, or overall physical attributes) and informational content, and the relationship of original sources to physical or digital copies of those sources.

#### 4F. Demonstrate historical empathy, curiosity about the past, and appreciation for historical sources and historical actors.

### 5. Use and Incorporate
