Moms Against Mercury  
55 Carson's Trail  
Leicester, NC 28748

Dear Moms against Mercury,

I am completing a doctoral dissertation at the University of Pittsburgh entitled Autism and Vaccines: A Health Social Movement. In my work I make reference to the rallies your organization organized and I would like your permission to reprint in my dissertation photographs from your rallies posted on your website. I have attached the photos I'd like to include.

The requested permission extends to any future revisions and editions of my dissertation, including non-exclusive world rights in all languages, to the electronic publication of my dissertation by the University of Pittsburgh, and to the prospective publication of my dissertation by Bell and Howell. Bell and Howell may supply copies of my dissertation on demand. These rights will in no way restrict republication of the material in any other form by you or by others authorized by you. Your signing of this letter will also confirm that you own the copyright to the above-described material.

If these arrangements meet with your approval, please sign this letter where indicated below and return it to me in the enclosed return envelope. Thank you very much.

Sincerely,  
Margaret Kerr

PERMISSION GRANTED FOR THE  
USE REQUESTED ABOVE:

Date:

  
Amy M. Carson, Co-Founder MAM

These photos express the anger, frustration, and blame the parents feel towards the CDC, government, and the pharmaceutical companies.
